

Title:	Public Health Operations on Passenger Ships Training course on the management of public health events	
Purpose:	This course will provide practical examples of up-to-date, evidence based good practices for preventing and responding to public health events in the maritime passenger setting.	
 Dates:	<div style="background-color: #334d5d; color: white; padding: 5px;">Monday 11 – Thursday 14 May 2026</div> <ul style="list-style-type: none"> Day 1: only self-paced session – participants will have to complete the pre-test, view recorded videos, and complete self-paced exercises at the SHIPSAN e-learning platform. Days 2-4: combination of live and self-paced sessions. The live sessions will be held at 15:00 CEST (maximum 3 hours per day). 	
 Trainers:	Members of the EU SHIPSAN scientific association	
 Who should attend?	<ul style="list-style-type: none"> Medical staff, public health officers, other ship officers and crew members with duties related to medical and public health operations on board passenger ships, as well as managers and supervisors In-house or contracted trainers responsible to deliver health and hygiene training to crew members 	
 Course content & objectives:	<p>This comprehensive training course will delve into key concepts in public health operations. Participants will gain insights into auditing medical facility operations and developing effective plans for infectious disease prevention, mitigation, and management. The course will provide an in-depth overview of prevention and control measures for gastroenteritis, Legionnaires' disease, vaccine-preventable diseases, and influenza on board ships. Attendees will learn to identify common illnesses on passenger ships, recognize when case reports exceed expected thresholds, and implement rapid response strategies to manage and control outbreaks effectively. Specificities of expedition cruise ships medical operations will be addressed. Additionally, the course will offer guidance on accessing reliable resources and alerts related to food safety and infectious diseases in Europe and globally. By the end of the training, participants will be equipped with practical tools and knowledge to strengthen public health operations in maritime environments.</p> <p>Learning objectives</p> <ul style="list-style-type: none"> Apply the requirements from the 3rd edition of the European Manual in evaluating medical facilities areas for compliance with infection control processes. Click here to download the 3rd Edition of the European Manual. Describe transmission routes for gastroenteritis, Legionnaires' disease, vaccine preventable diseases and acute respiratory illness (ARI). Demonstrate knowledge on surveillance demands and pre-boarding passenger and crew screening principles. Use of the Outbreak Management Plan tool to organise both routine and elevated levels of illness when triggers are reached. Evaluate the pro-active role of supervisors in implementing the response actions and observation of activities to ensure guidance is followed strictly. Apply control measures which match the illness and response phase established. Assess the methods followed in housekeeping closely to prevent illness spread and repeat cabin occurrence. Implement the International Health Regulations requirements for ship operators. 	

	Course methodology:	<p>This course will combine self-paced online learning (asynchronous) and online live streaming (synchronous) methods. The training approach of the course consists of:</p> <ul style="list-style-type: none"> • Lectures – instruction and theory on the subject matter • Online self-paced exercises – adapting theory • Case studies – use of scenarios to exercise problem solving • Questions and answers – updating skills and knowledge • Resources in the form of support documentation in an electronic format
	Assessment:	<p>At the beginning and at the end of the training course, there will be an assessment. It will include multiple choice and short answer questions covering the topics discussed in the course.</p> <p>Aim of the assessment: It is a tool to give a better idea of the trainees' learning progress.</p>
	Administrative Information:	<p>Training fees The cost for attendance for this course is 500 euros per participant.</p> <p>Cancellations and penalties policy: If you proceed to any cancellation 2 days before the start of the course (Saturday 9 May 2026) the fees will be returned but you will be charged with any bank transfer costs that may be incurred by the transaction. If you cancel after Saturday 9 May 2026, the penalty will be €100 plus any bank transfer costs that may be incurred by the transaction. We reserve the right to cancel the training event if minimum enrollments are not met. In which case, all course fees will be fully refunded.</p>
	Certification:	<p>A certificate of successful completion will be issued to participants who successfully pass (>=70%) the final assessment. You must attend all days and complete all modules and mandatory sessions in order to receive your certificate.</p>
	Materials required:	<p>This training course will require access to the internet to connect to the asynchronous E-learning platform and also to the live broadcasting sessions (broadcasting platform to be used: ZOOM).</p> <p>Basic requirements:</p> <ul style="list-style-type: none"> • PC, laptop, Mac, iPad or tablet • Web browser • Access permission to Vimeo service (https://vimeo.com/) for video viewing <p>Further information regarding access to the asynchronous e-learning platform and the on-line broadcasting platform will follow after payment confirmation.</p> <p><i>We do not accept any responsibility and will not be liable for any technical difficulties/problems from your side (e.g. poor internet connection, devices used not according to our specifications, hardware issues)</i></p>
<h2>ENROLMENT INFORMATION</h2>		
	Registration:	<p>Click on the following link to register online for the training course: https://forms.med.uth.gr/index.php/545942?lang=en</p> <p>Maximum number of trainees to be accepted for this course: 40</p> <p>Registration is on a first come, first served basis.</p>
	Registration deadline:	<p>7 May 2026</p>
